10	NITI Aayog Annual Report 2022-2023	NITI Aayog, Government of India	The NITI Aayog serves as the apex public policy think tank of the Government of India, and the nodal agency tasked with catalysing economic development, and fostering cooperative federalism through the involvement of State Governments of India in the economic policy-making process using a bottom-up approach. This Report is published by NITI Aayog provides detailed information about framework of NITI Aayog, policies and programmes implemented by it, monitoring and evaluation details, think tank activities and sectoral achievements, etc.	Annual-Report-2022-2023-English_06022023_compressed.pdf (niti.gov.in)
11	Best practices in social sector: A compendium 2023	NITI Aayog, Government of India	"Best practices in social sector: A compendium, 2023" has been prepared under the guidance and support of National Institution for Transforming India (NITI Aayog), Government of India and United Nations Development Programme (UNDP). The preparation of the compendium entailed extensive data collection from across 28 States and 8 Union Territories in India. It provides information about best practices under different social sectors in India.	Best-Practices.pdf (niti.gov.in)
12	Promoting Millets in Diets Best Practices across States/UTs of India	NITI Aayog, Government of India	NITI Aayog has prepared this compendium of best practices from States/UTs covering effective policies for promoting millets and including them in the Integrated Child Development Services program as well as research and technology related innovations. The compendium is the result of a collaborative effort between NITI Aayog and various central and state government departments, technical experts and civil society organizations.	Report-on-Promoting-Best-practices-on-Millets-26_4_23.pdf (niti.gov.in)
13	AIM-UNCDF White paper on 'GEARING UP TO SOLVE FOOD SECURITY CHALLENGES'	UNCDF and Atal Innovation Mission, NITI Aayog, Government of India	The white paper is the result of experience working with start-ups in agritech sector while implementing the Agritech Challenge in partnership with Atal Innovation Mission, India (AIM). This white paper highlights the challenges and opportunities faced by Indian agritech start-ups and the role of the Government of India (GoI). It suggests a significant role in solving challenges faced by the start-ups and	Final.cdr (niti.gov.in)

Sr. No.	Name of the Report/Document	Published By	Report/Document Overview	Relevant Links
			facilitating these start-ups at the national and international levels as a partner. It presents steps for making India not only an Agritech innovation hub but also a global leader in sharing and expanding these innovations to the least developed countries in Asia and Africa.	
14	Compendium of 75 Agri Entrepreneurs and Innovators	NITI Aayog, Government of India	This document is prepared by NITI Aayog to showcase the success stories of innovators and entrepreneurs belonging to agri and allied sector who are working towards capturing realistic ideas and converting them into real innovations.	Compendium-of-75-agri-entrepreneur.pdf (niti.gov.in)
15	Agricultural challenges and Policies for the 21st Century	Department of Economic Analysis and Research, National Bank for Agriculture and Rural Development	The paper begins by examining the severity and extent of various types of challenges confronting Indian agriculture, ranging from over exploitation of natural resources to smallholder viability to agricultural research and development. It then highlights key policies and initiatives that can be put in place to address these issues. While discussing the policies, the author thoroughly reviewed the current agri-marketing and MSP policies and tried to provide solutions to major problems under the current policy setup. At the end, the author discusses various issues that must be debated to ensure sustainability of all the stakeholders in agricultural sector.	Paper_Agri-Challenges-and-Policies_NABARD.pdf (niti.gov.in)
16	A New Paradigm for Indian Agriculture	NITI Aayog, Government of India	By showing that India's path of structural transformation is unsustainable, this paper calls for a new paradigm in Indian agriculture through the adoption of agroecological principles at scale. The paper then examines the challenges agriculture in India faces in raising productivity. This paper demonstrates the imbalance in fertiliser use at the state-level and demonstrates the alarming level of water extraction, in the most productive states. Based on these discussions, the paper concludes that India faces the twin challenges of improving productivity, but also doing it in an environmentally	Working_Paper_on_Agriculture_With_Cropmarks_060402022.pdf (niti.gov.in)
